OUR WORK

VaxiGlobal

Initially, VaxiGlobal was made as a "Digital Immunization records" for people traveling across the globe. After the Covid'19 Pandemic and funding from WHO Africa, VaxiGlobal now provides complete Immunization Records for all the diseases including Coronavirus test results and Vaccination records. This application will help travelers to have all their Vaccination records and Test result on a single mobile application.

This application has the following stakeholders
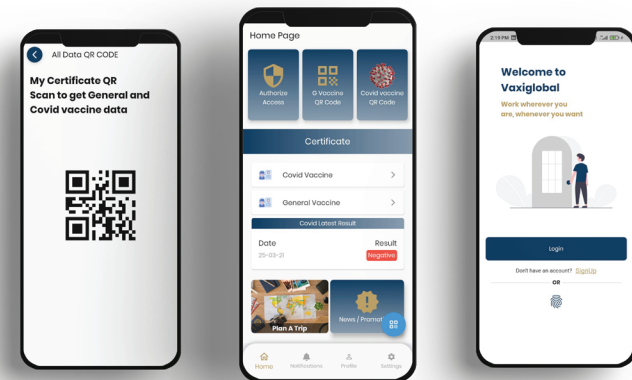

Doctors, Nurses, Clinic
Doctors and Nurses have options to add Travellers, make a certificate for travelers, add Immunization records. Clinic will have the option to add multiple doctors and Nurses.

Traveller
Traveller will have all the records available on his mobile application that is stored locally. He/She can set who can view his/her certificate and is also able to see the vaccination requirements for every country.

Government Institutes
Government Institutes such as airport staff can look for a traveller's vaccination records and test results using Vaxiglobal Mobile Application's QR code scanner and face recognition features
